

RHINESTONE FLOCK

Special Precautions

Not recommended for washing. Not suitable for heat transfer. This product contains a thin layer of PVC, therefore it cannot be cut with a laser.

Available Widths (in.): *12" Only

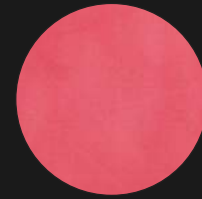

Available Lengths (ft.): 15', 30', 75', and 150'

Thickness

18 mils/450 microns
(without liner)

A self-adhesive, velvety material used for rhinestone templates.

Place the template on a backboard or other hard surface to fill in with your rhinestones.

Coral Pink
RHST-FLK

CUTTING

60° Blade Recommended -
Cut like other flock material,
but be careful not to cut through the backing paper.

TRANSFER MASK

Use KTM-500 transfer mask, peel up
the rhinestone decal. Heat press it to the garment
using your rhinestone specifications.

MIRRORING

Cut this material in "right-reading".

TEMPERATURE

Place the template on a backboard or other hard
surface to fill in with your rhinestones.

PEELING

Peel the corner of the flock, leaving the dots
behind on the paper backing.

NOT LASER COMPATIBLE

This product contains PVC and will
emit hazardous fumes.
